

## NPW is proud to launch Nonprofit Learning Labs.

Nonprofit Learning Labs will provide you with **new tools to build organizational capacity, develop individual skills and enhance efficient and effective services.** These in-depth learning opportunities will give you the opportunity to learn and network with colleagues and experts in subject matter areas.

In Year One, Nonprofit Learning Labs will be offered FREE OF CHARGE and will target small nonprofits and those run by people of color. Individual consultation hours will be provided to all participating organizations. Upon full completion of the Lab, participating nonprofits will receive a flat reimbursement fee for staff time spent in training.
